

## Welcome back...

- Your industry is at particular risk of Covid-19 because you have close contact with your customers. Together in Waverley, we need to do all we can to avoid another lockdown.
- Prior to opening, all businesses are required by law to complete a Covid-19 risk assessment.
- You must wear both a face mask and visor when working closely with customers.
- This short video helps business owners like you to prepare their premises, with new measures in place before re-opening.
- Scan the QR code below to watch a guidance video for close contact services. You must adhere to these rules when re-opening your business.

Good luck with your business. If you have any questions, please email [environmentalhealth@waverley.gov.uk](mailto:environmentalhealth@waverley.gov.uk) or visit our website <https://www.waverley.gov.uk/> for more information.
